Don't want to RENT IT? BUY IT, from Pro Tool & Supply. Our three convenient showrooms are stocked with inventory from top manufacturers you know and trust for your job site. You won't be let down with our unparalleled service, extensive product knowledge, and onsite delivery for all your Tool and Equipment needs. Not sure if we have it, JUST ASK! SOMETHING BROKEN? We offer Manufacturer Certified Equipment Repair Technicians to get you back up and running. Call one of our Showrooms or your Sales Representative today. TOGETHER, LET'S GET THE JOB DONE RIGHT.

POLICY

- Rental Charges begin when equipment leaves our shop, and end when equipment is returned or called in for pick-up.
- Rental rates are based on an 8 hour day, 40 hour week, and 172 hour month. Double shift operation will result in charges of 150% of rate and triple shift operation will result in charges of 200% of current rate.
- Rates include normal wear and tear. Any damage beyond that will be charged at our current repair rates.
- Customer is responsible for any theft, fire, vandalism damages, etc.
- Lessee bears the responsibility and associated cost to keep the equipment in good repair, condition, working order and maintained in accordance with the manufacturer's recommended engineering and maintenance standards.
- Lessee must notify the lesser if a scheduled maintenance program is required.
- Lessee bears the responsibility to call Pro Equipment Rental when they are finished with any & all rental equipment.

CREDIT POLICY

- Terms of payment are Net 30 days.
- All customers must have an established account or a deposit will be required on all rental equipment items.

RENTAL PURCHASE OPTION

- All rentals must be paid on-time in order to apply.
- If you elect to purchase equipment during your rental contract period, a percentage of rental cost will apply as a credit toward the current new selling price of the equipment. The schedule is as follows:
 - * 90% will apply if purchased within 30 days
 - * 75% will apply if purchased within 30 to 90 day
 - * 50% will apply if purchased after 90 days
- All rental purchases are not retroactive.

CUSTOMER RESPONSIBILITY: Daily & scheduled service & cleaning, lubrication, engine oil, fuel, filters, fluids, tire damage, equipment damage, insurance. Charges will be made if machine is not properly maintained, returned dirty or in damaged condition.

SURFACE PREPARATION FROM HUSQVARNA

HUSQVARNA PG 280

The ideal grinder for rental customers who need to grind concrete, mastics, paints, etc. It's small and easy to maneuver, yet strong enough to get the job done.

PG 280 SF

DC 1400

DC 1400 VACUUM UNIT

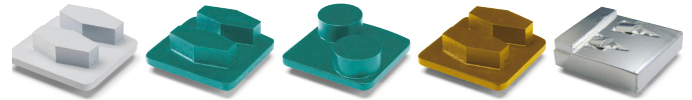

A small and lightweight wet/dry vacuum, it is perfect for dust control when used with the PG 280. It can also be used with hand grinders.

Husqvarna®

REDI LOCK™ G600 DIAMOND GRINDING SEGMENT SERIES

The 600 series is a good and simple alternative in small jobs, where optimal performance is not a must.

HUSQVARNA PG 530 WITH DC 3300 VACUUM UNIT

The smallest planetary grinder available, it's the perfect machine for residential and commercial contractors that work in tight spaces.

PG 530

DC 3300

DC 3300 VACUUM UNIT

A single-phase dust extraction unit designed to accompany the PG 530 grinder to ensure a dust-free work environment.

REDI LOCK™ G 1100 DIAMOND GRINDING SEGMENT SERIES

The G 1100 metal bond diamond range represents the highest level of performance for all professionals focusing on high efficiency and profitability. Available in single or double Husqvarna or single or double Convex shapes.

HUSQVARNA PG 820 WITH DC 5500 VACUUM UNIT

An all-purpose grinder that is perfect for contractors who need an extremely powerful and tough grinder/polisher to handle large areas and a wide array of applications.

PG 820

DC 5500

DC 5500 VACUUM UNIT

The perfect choice for any large planetary grinder that needs a vacuum with high suction and flow to eliminate airborne dust. The high CFM and large capacity enable it to handle all grinding and polishing applications.

Diamond Height (MM)	6.5

P 1200 RESIN POLISHING PADS

- Allows the user to reach a certain gloss level in a few steps, which saves time and tooling, lowers cost, and produces a better end result.
- It is strictly for dry polishing of concrete and cement based terrazzo floors.
- Should be used in conjunction with Hiperhard™ floor densifier/hardener (highly recommended).
- Available in 3" (Velcro-backed) grits and is 3" (76mm) in diameter to be used on PG machines.
- 6.5mm diamond height and lower wear-out rate offer long durability.

- * Scofield® Formula One™ Liquid Dye Concentrate
- * Scofield® Formula One™ Lithium Densifier MP
- * Scofield® Formula One™ Finish Coat
- * Scofield® Formula One™ Guard-W

- * Scofield® Formula One™ Guard-S Concentrate

RIDE-ON FLOOR SCRAPER

CYCLONE by SASE

- Most efficient battery powered floor scraper
- Triple blade action to maneuver, angle and pivot the scraper blade
- Fits through standard doorways and on elevators
- Removes all types of floor coverings, VCT, laminates, hardwoods and rubberized coatings, carpet and more
- Comes standard with a 220 V charger
- Single joystick control for speed, steering and direction
- Zero emissions floor scraper

The SASE Cyclone will remove virtually all floor covering materials in a single pass

Triple Blade Action

Action One:

Lowers and raises the blade to the floor

Action Two:

Positions the angle of the blade for optimal removal of a variety of floor coverings

Action Three:

The integral pivoting blade action keeps the full length of the blade in constant contact with the floor

HI400D, HI400G

Portable indirect fired air heaters produce clean, dry, healthy heat offering an ideal environment for a variety of construction, residential and restoration applications without the use of an open flame, combustion carbons or water. The unique Recircul-Air design allows adjustable recirculation of warm inside air, while pressurizing with fresh air, resulting in fuel savings and even temperatures. Available in Diesel or Natural Gas/Propane, the HI 400HD can handle various heating and drying applications at over 85% efficiency due to dedicated 2nd blower for combustion; one of the highest in the industry! Large pneumatic tires mean easy positioning on job sites. The HI 400HD is CSA approved.

HI400

HI750D, HI750G, HI900D, HI900G

The most versatile, robust indirect fired air heaters producing clean, moisture free air for various heating and drying applications. The HI750/HI 900 is easy to set-up and simple to operation making these units extremely user friendly, and can operate on diesel, natural gas or propane for maximum job site convenience. Self Contained 6kW generator on board all models. All models are CSA certified.

HI900

E3000

E3000 GROUND THAW

Engineered for reliable performance and trouble-free starts for up to 140 hours of run time, the E 3000ES will provide maximum flow and ensure consistent heat delivery for thawing and curing applications. The E 3000ES thaws or cures up to 6,000 sq. ft. With accessories this heater will cure up to 18,000 sq. ft. or provide 535,000 cu. ft. of dry heat at 83% efficiency, the highest in the industry.
