## FALL PROTECTION

### Confined Space Rescue

#### ADVANCED 7' ALUMINUM TRIPOD

- Lightweight, durable aluminum construction.
- Includes quick connect winch mount bracket (winch sold separately).
- Includes top mounted pulley system.
- Telescoping adjustable locking legs for easy set-up.
- Fast detent pin style adjustment and locking
- Rubber safety shoes with spiked edges for different terrains.
- Safety chain for added support, strength and safety.
- 5,000 lb. built-in head-mounted anchor points.

8000000

LADDERS

#1 IN LADDERS™

PODIUM

WORK FACING ANY DIRECTION

- 4x WORK ZONE allows you to work facing any direction so you can accomplish more without having to reposition your ladder.
- Ideal for working at fixed heights and easier to maneuver than scaffolds or lifts.
- Feel like you're standing on the ground with the extra-large platform (16" x 19.5"), 36" high extended guard rail and LOCKTOP™ wrap around ladder top.
- Customize your ladder top with the Lock-In Accessory System.
- Available in Type IAA (375lb capacity) and Type IA (300lb capacity) Duty Ratings.
- Available with factory-installed casters for improved mobility.

SAFE-T™ LADDER RAIL EXTENSION SYSTEM (15 lbs.)

- Aluminum Design makes the Ladder System Lightweight.
- Designed to attach over the top of the ladder and provide a safe and easy transition from the ladder to a second surface.
- Requires no tools, drilling or bolting to hold it securely in place.
- Two offsetting handrails.
- Extends 36" above the roof.

PROTECTIVE INDUSTRIAL PRODUCTS

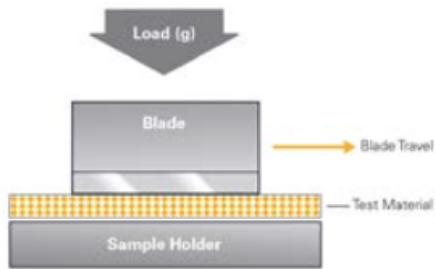

**CUT RESISTANT GLOVES**

UNDERSTANDING CUT SCORES

UNDERSTANDING

**ANSI F1790 AND ISO 13997 TEST METHODS**

The sample is cut by a straight-edge blade, under load, that moves along a straight path. The sample is cut five times each at three different loads with a new blade for each cut and the data is used to determine the required load to cut through the sample at a specified reference distance. This is referred to as the cutting force, which is then equated to a cut level.

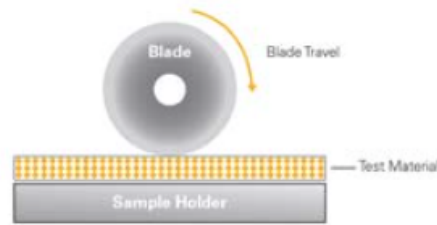

**ANSI/ISEA 105 PERFORMANCE LEVELS FOR CUT RESISTANCE**

PERFORMANCE LEVEL	WEIGHT (G) NEEDED TO CUT THROUGH MATERIAL WITH 25-MM (1.0 IN.) BLADE TRAVEL FOR CPPT CUT MEASUREMENT DEVICE USING THE 1290-07 METHOD OR WEIGHT (G) NEEDED TO CUT THROUGH MATERIAL WITH 20-MM (0.8 IN.) BLADE TRAVEL FOR TDM CUT MEASUREMENT DEVICE USING THE 1290-05 METHOD
0	0 - 199
1	200 - 499
2	500 - 999
3	1,000 - 1,499
4	1,500 - 3,499
5	3,500+

UNDERSTANDING

**EN 388 TEST METHOD**

A circular blade, under a fixed load, moves back and forth across the sample until cut-through is achieved. Cut resistance is a ratio of the number of cycles needed to cut through the test sample vs. the reference material. This is referred to as the cut index which is then equated to a cut level.

**EN 388 PERFORMANCE LEVELS FOR CUT RESISTANCE**

PERFORMANCE LEVEL	BLADE CUT RESISTANCE (CUT INDEX)
1	1.2 - 2.4
2	2.5 - 4.9
3	5.0 - 9.9
4	10.0 - 19.9
5	20+

**SAFETY GEAR** Apparel

**2015 ANSI REQUIREMENTS**

**PERFORMANCE CLASSES**

**3 PERFORMANCE CLASSES**

(1,2, AND 3) BASED ON THE AMOUNT OF VISIBLE MATERIALS AND DESIGN ATTRIBUTES OF THE FINAL CONFIGURATION

**PERFORMANCE CLASS 1 | TYPE O Only:**

Provides the minimum amount of high-visibility materials required to differentiate the wearer visually from noncomplex work environments, in scenarios in which the struck-by-hazards will not be approaching at roadway speeds, and therefore have greater operative detection and identification distances.

**TYPE O OFF-ROAD**

**CLASS 1** WAREHOUSE WORKERS | MINING | PETROCHEM

**PERFORMANCE CLASS 2 | TYPE R & TYPE P:**

Provides for the use of additional amounts of high-visibility materials, which may allow design opportunities to define the human form more effectively. Performance Class 2 HVSA have the potential to provide faster detection and identification distances, and increased conspicuity performance compared to Performance Class 1 HVSA.

**TYPE R ROADWAY & TEMPORARY TRAFFIC CONTROL**

**CLASS 2** ROADWAY CONSTRUCTION WORKER | MUNICIPALITIES | AIRLINE RAMP PERSONNEL

**TYPE P PUBLIC SAFETY**

**CLASS 2** POLICE | FIRE | EMS | SHERIFF, ETC.

**PERFORMANCE CLASS 3 | TYPE R & TYPE P:**

Performance Class 3 can offer greater visibility to the wearer in both complex backgrounds and through a full range of body movements by mandatory placement of background, retroreflective and combined-performance materials on sleeve and pant legs (if present). Regardless of the area of materials used, a sleeveless garment or vest alone shall not be considered Performance Class 3.

**TYPE R ROADWAY & TEMPORARY TRAFFIC CONTROL**

**CLASS 3** FLAGGERS | DEPT OF TRANSPORTATION | NIGHTTIME WORK | MUNICIPALITIES | STATE OF VA

**TYPE P PUBLIC SAFETY**

**CLASS 3** POLICE | FIRE | EMS | SHERIFF, ETC.

**SUPPLEMENTAL CLASS E**

Class E apparel includes pants, bib overalls, shorts and gaiters. These garments are not compliant when they are worn alone, though when combined with Class 2 or Class 3 apparel, the combination satisfies Class 3 requirements.

**Optional High-Visibility Accessories** High-visibility accessories are not intended to be used alone as personal protective equipment against struck-by hazards and such items shall not contribute to the minimum areas of visible materials of the HVSA.

**FABRIC AND REFLECTIVE REQUIREMENTS BROKEN DOWN BY TYPE AND CLASS**

**SAFETY GEAR** Apparel

**2015 ANSI REQUIREMENTS**

**GARMENT  
CATEGORIES**

**3 NEW GARMENT TYPES: O, R, AND P  
CREATES A WIDER RANGE OF PROTECTION TO ADDRESS MORE HAZARDS**

**TYPE O**

**OFF-ROAD USE**

Meant for off-road applications, Type O provides added visibility to workers who are not exposed to traffic. Type O provides the minimum amount of high-visibility materials required to differentiate the worker from non-complex work environments.

**TYPE R**

**ROADWAY USE**

Enhanced visibility for workers who are exposed to highway traffic and working within complex backgrounds during daytime and nighttime environments. This includes exposure to vehicles using the highway for purposes of travel, roadway temporary traffic control (TTC) zones or from work vehicles and construction equipment within a roadway temporary traffic control (TTC) zone.

**TYPE P**

**PUBLIC SAFETY**

Enhanced visibility for emergency and incident responders and law enforcement personnel in both roadway and off-road environments. The standard requires less fluorescent background material in order to incorporate colored panels to easily identify and distinguish personnel. It also permits for shorter garments in order to make tactical access to equipment belts easier and safer.

**SAFETY GEAR** Apparel

**Safety Vests**

**S320**

**S320**

- S320 Mesh Break-Away**
- 100% polyester mesh
  - 5-point break-away
  - 2 interior waist pockets with hook & loop closure
  - Hook and Loop Closure
  - AWARELite™ Reflective Trim
  - ANSI CLASS 2
  - Conforms to ANSI/SEA 107 standard for design, color, and reflectivity

**S388**

**S388**

- S388 Woven Oxford**
- 100% polyester woven oxford
  - 2 open interior waist pockets. Left pocket includes inset pen compartment
  - Hook and Loop Closure
  - AWARELite™ Reflective Trim
  - ANSI CLASS 2
  - Conforms to ANSI/SEA 107 for design, color, and reflectivity

**S380**

**S380**

- S380 Solid Front Mesh Back Surveyor**
- 100% polyester tricot front
  - 100% polyester mesh back
  - 2" silver reflective tape backed by contrasting trim
  - 1 split pad/pencil pocket
  - 1 radio pocket, 2 exterior waist pockets flapped with hook & loop closure
  - 2 interior open waist pockets, 1 interior waist pocket, 1 interior flashlight pocket
  - Zipper closure
  - AWARELite™ Reflective Trim
  - ANSI CLASS 2
  - Conforms to ANSI/SEA 107 for design, color, and reflectivity

**TONY SANSERI SIGNATURE LINE**

**75-3222**

**75-3221**

**Tony Sanseri Signature Line Class 2 Solid Surveyors Style Vest with Contrasting DOT Striping**

- Heavy-duty radio tabs
- Seven full-size pockets (a radio pocket, with Velcro closure, large chest pocket, two large waist pockets with Velcro closures, and two large inside pockets).
- Includes four pen pockets
- Heavy-duty zipper closure
- Meets ANSI / SEA 107-2010 Class 2 Standard
- M-5X, Yellow/Orange, with solid back or mesh back.

**Chaps**

**LEATHER CHAPS**

Designed for use with cutt-off machines, these top-quality STIHL Leather Chaps provide maximum protection from abrasion, spatter and sparks when cutting ferrous metals. The chaps cover from the waist down, and feature quick-release buckles as well as easily adjustable nylon straps. **NOT FOR USE WITH CHAIN SAWS.**

**PRO MARK™ APRON CHAPS ORANGE - 9 LAYER**

For heavyweight protection that won't weigh you down, choose Pro Mark™ Apron Chaps from STIHL. They're rugged, yet comfortable to wear and easily fit over your work clothes. Sewn into the legs of the chaps are nine layers of Engtex®, a cut-retardant material designed to reduce the risk of severity of injury to the body parts covered by the pads in the event of contact with the rotating saw chain of a gasoline-powered chain saw. The open-back design of these chaps makes them a great choice for hot working conditions.

Rain Gear

75-1351

75-1352

This high visibility rain jacket is 100% polyester, PU coated oxford fabric. All seams are fully taped to insure waterproof integrity. Jacket has two outer pockets and hood. Unlined. Meets ANSI / ISEA 107-2010 Class 3 standard. M-6X

75-2351

75-2352

Waterproof rain trouser matches any of the high visibility ajckets shown and meets the ANSI / ISEA 107-2010 Class E standard. Un-lined with elastic waist, snap front and legs. M-6X

**SLB SLUSH BOOT**

17" rubber legging over-shoe boot. Full cut for easy fit. Fully lined, extra wide last, adjustable strap with buckle on top. Heavy cleated sole.  
Sizes: 6-15.

**WATER COOLERS & GATORADE PACKETS**

Winter Gear

75-1303

75-1304

Cold weather high visibility parka designed to keep out the wet and the cold. Sewn-in, anti-pilling polar fleece lining and detachable hood. All seams are taped. Sleeves are detachable and have elastic cuffs and snaps for wind protection. The flap pockets also snap and the heavy-duty zippered front includes a storm flap. Meets ANSI / ISEA 107-2010 Class 3 standard. M-6X

Safety Products for LIFE.™

S510

**S510 3 in 1 Bomber Jacket (WATERPROOF)**

- ANSI Class 3
- 100% polyester woven 300D oxford with PU coating
- Removeable 100% polyester fleece lining
- Detachable hood (collar storage)
- Right interior chest pocket
- 2 exterior waist slash pockets with zipper closure
- AWARELite™ Reflective Trim

- Right exterior chest pocket with zipper closure
- Left chest exterior radio/cell phone pocket, 3.5" W x 5" D with 1" gusset
- 2 pen pockets on left sleeve
- Fleece liner has 2 waist slash pockets with zipper closure and 1 right chest pocket with zipper closure
- Mic tabs on both sides

HORIZONTAL MOUNT

### AUTOMATIC SPOT PROTECTION

Designed for single unit installations, the Buckeye Fire Equipment Mini-Guard automatic spot protection extinguishers provide supplementary fire protection suitable for some local and total flood applications. These units are not intended as a substitute for automatic sprinkler systems, fixed pre-engineered or engineered extinguishing systems and are not intended to be multiple mounted.

The Mini-Guard automatic spot protection extinguishers are designed, constructed, and tested to the same engineering standards as Buckeye portable fire extinguishers. Available in horizontal or vertical configurations, the units can be charged with multipurpose (ABC) dry chemical or Halotron agents and are fitted with a detection sprinkler head that is rated at 165° F.

## DEBRIS NETTING / PRIVACY SCREEN

### Debris Netting

#### SBN-22 SAFETY DEBRIS NETTING

- Fire Retardant: Meets NFPA 701 Method II
- Knitted High Density Polyethylene Mesh with 1/4" Hole Openings
- Economical & Cost Effective
- Lightweight, UV-Treated & Long Lasting
- Reinforced Hem
- Meets OSHA Requirements

#### SIZES & AVAILABILITY

Orange/Blue Fire Retardant:	4' x 150'	8'6" x 150'
	5'6" x 150'	10'6" x 150'
Black Fire Retardant:	8'6" x 150'	10'6" x 150'
Gray/Green Fire Retardant:	8'6" x 150'	
Black Non-Fire Retardant:	4' x 150'	8'6" x 150'
	10'6" x 150'	

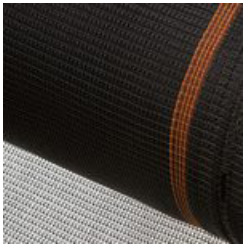

#### SBN-427 PVC-COATED DEBRIS NETTING

- Fire Retardant: Meets NFPA 701 Method II
- PVC-Coated Polyester
- Hole Openings Approximately 3/16" x 3/16"
- High Visibility Fluorescent Orange
- Lightweight, Durable, & UV-Treated
- Tear-Resistant & Flexible In Cold Weather
- Meets OSHA Requirements

#### SIZES & AVAILABILITY

4' x 150'  
5'6" x 150'

#### SBN-324 DEBRIS NETTING

- Fire Retardant: Meets NFPA 701 Method II
- Knitted High Density Polyethylene
- Reinforced Buttonholes
- UV-Treated & Long Lasting
- Flexible In Cold Temperatures
- Installed Vertically or Horizontally
- Durable 60% Mesh

#### SIZES & AVAILABILITY

Black/White Fire Retardant:	8'6" x 150'	10' x 150'
Green Fire Retardant:	8'6" x 150'	
Black Non-Fire Retardant:	4' x 150'	15' x 150'
	8'6" x 150'	10' x 300'
	10' x 150'	12' x 300'

#### SBN-1460 HEAVY DUTY DEBRIS NETTING

- Knitted High Density Polyethylene
- Reinforced Buttonholes
- UV-Treated & Long Lasting
- Flexible In Cold Temperatures
- Installed Vertically or Horizontally
- Durable 60% Mesh

#### SIZES & AVAILABILITY

10' x 300' (Black)  
12' x 300' (Black)

#### SBN-1460 HEAVY DUTY DEBRIS NETTING

- Knitted High Density Polyethylene
- UV-Treated & Long Lasting
- Flexible In Cold Temperatures
- Installed Vertically or Horizontally
- Durable 70% Mesh
- Webbing With Grommets Added To Hem For Superior Strength

#### SIZES & AVAILABILITY

### Drainage Tarp

#### FIRE RETARDANT DRAINAGE TARP

- Fire Retardant: Meets NFPA 701 Method II
- Color: White
- 1" D-Ring In Each Corner
- Double-Stitched Hems
- 14 x 14 Woven Reinforced Poly
- Equipped With Fitting That Easily Connects To Any Standard 3/4" Garden Hose

#### SIZES & AVAILABILITY

- 3' x 6' (10 Per Carton)
- 6' x 6' (10 Per Carton)
- 6' x 8' (10 Per Carton)
- 6' x 10' (5 Per Carton)
- 10' x 10' (5 Per Carton)
- 12' x 12' (5 Per Carton)
- 15' x 15' (5 Per Carton)
- All Tarps Are Listed Finished Size
- Sizes 12' x 12' and 15' x 15' Have Additional D-Rings On Each Side (Middle)

#### DEMO, CANVAS & AIR BAG TARPES & LIFTING NETS

- Heavy-Duty Webbing, Stitching & Grommets
- Durable & Strong Material
- Superior, Consistent Fabrication
- Fire-Retardant & Non-Fire Retardant Available

#### SIZES & AVAILABILITY

- Each Request is MADE TO ORDER.
- Fire Retardant Not Available In All Material

## REBAR CAPS

### Rebar Cap

#### ERB10 REBAR CAP 16911

- Scratch protection cap
- NOT to be used for impalment protection
- Fits Rebar #3 - #8
- Orange for increased visibility

#### DCS10 REBAR OSHA CAP 16910

- Cal. OSHA Approval #C1703AG
- Meets Federal OSHA Spec. #1926.701(b)
- Cover contains a curved steel plate, which provides additional protection against falls that occur from an angle, preventing hazardous impalement
- Fits Rebar #3 - #7

### Carnie Cap

CARNIE CAP is the most effective way to cap exposed rebar keeping your workers safe and on the job. These unique rebar caps hold a 2x4 or 2x6 suspended above a line of rebar, eliminating the need to cap each rebar in a line. The lumber acts as the actual impalement protection. The caps are Cal-OSHA approved, Maine OSHA approved and National OSHA compliant. 90% biodegradable and 100% recyclable.

- Works in horizontal, vertical, & incline applications
- Safely distributes weight across entire system
- Assemble with 2x4 or 2x6 lumber already on-site
- No more capping every rebar
- MADE IN USA

## DEBRIS NETTING / PRIVACY SCREEN

### Privacy Screen

- High density knitted polyethylene mesh (HDPE)
- 90% shade cloth
- Durable, tear resistant mesh
- Roll width: 5'8", 7'8", 10'
- Roll length: 150 ft.
- UV treated
- Rolls include reinforced button holes on the long edges
- Pre-made panels include webbing & grommets on all edges

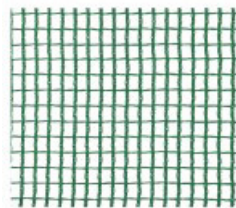

- Provides a visual barrier for privacy
- Protect dust & debris on the construction jobsite
- Creates a wind block or shade cloth
- Can be used as crowd control for special events
- Tear resistant
- Will not unravel when cut
- Will not brittle or crack in harsh weather environments

### Safety Netting

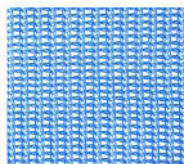

- High density knitted polyethylene mesh (HDPE)
- 1/4" mesh openings
- Lightweight, allows air to pass through
- Roll width: 2', 4', 5'6", 8'6", 10'6", 12', 15'
- Roll length: 150 ft.
- Edges are hemmed and reinforced for fastening
- UV treated
- Flame Retardant available, meets NFPA 701 Test Method II
- Guardrail netting, floor-to-floor netting, scaffold netting

- Protects dust, debris & tools from falling
- Protects workers, pedestrians, adjacent properties
- Creates a temporary guardrail
- Creates a visual barrier for safety
- Helps contain small, fasteners, tools, materials and debris
- Will not unravel when cut

### Debris Netting

- Protects dust, debris & tools from falling
- Protects workers, pedestrians, adjacent properties
- Creates a protective scaffolding enclosure
- Creates a wind block or shade cloth
- Provides a visual barrier for added privacy
- Tear resistant
- Will not unravel when cut

- High density knitted polyethylene mesh (HDPE)
- 1/16" mesh openings
- Lightweight, tear resistant mesh
- Roll width: 4', 5'6", 8'6", 10', 12', 20'
- Roll length: 150 ft.
- Edges include reinforced eyelet button holes
- UV treated
- Flame Retardant available, meets NFPA 701 Test Method II
- Guardrail netting, floor-to-floor netting, scaffold netting

## GUARDRAIL SYSTEMS

### Portable Guardrail System

#### PORTABLE CONSTRUCTION GUARDRAIL SYSTEM

This system acts as a barrier preventing personnel from falling to lower levels, thus eliminating the fall hazard. This system can protect employees with little or no training, special maintenance or gear.

- Mounts in both parapet and edge grab configurations for jobsite versatility.
- Rapid clamping system expands from 6" to 24".
- Durable zinc plated finish for corrosion resistance and longevity.
- Supports both top and mid-rail guardrails, and toe boards when used in edge grab configuration.
- Use with standard wood 2 x 4's or other common guardrail materials

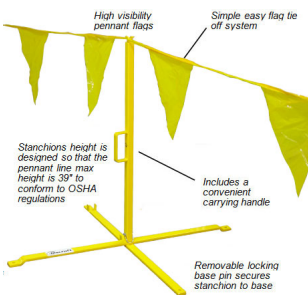

#### PORTABLE GUARDRAIL SYSTEM

This system acts as a barrier preventing personnel from falling to lower level, thus eliminating the fall hazard. This system can protect employees with little or no training, special maintenance or gear.

- Free-standing system eliminates surface penetration
- Built-in rail and toe board receptacles allow for infinite configurations.
- Rubber pad provides skid resistance and protects the roof surface.
- Ergonomic handles allow for easy transportation and set-up.
- Fast and easy set-screw installation, insert rail and tighten.
- Corrosion resistant construction for longevity.
- Custom colors available upon request.

Item Number	Description

#### PERIMETER WARNING LINE SYSTEM

Features and Benefits:

##### 100' Warning Line System

One system covers 100 linear feet and comes with four base sections and 100 feet of plastic OSHA rated flags.

##### Cross Stand Style

Cross Stand Style base unfolds for quick and easy set up as well as shipping and storage.

##### OSHA Compliant

Fully conforms to all OSHA regulations and requirements when properly set up.

##### Optional Handling Cart

Hoistable handling cart can be hoisted onto the roof at the job site and used to easily distribute the stands around the perimeter.

## GUARDRAIL SYSTEMS

### Safety Boot® Guardrails

#### SAFETY BOOT® GUARDRAIL SYSTEM

- Can be kept on-site and easily intalled as dangerous fall situations develop.
- Two 2 x 4's create a rigid post
- High impact polymer construction is lightweight
- Toeboard slot deisgn eliminates tacking
- Eliminates bracing. 10- 1/2" Diagonal footprint
- Anchors into most surfaces, including concrete
- Instant toeboards. 2 x 4's meet Federal OSHA Requirements
- All critical stress points reinforced - double polymer thickness

**Safety Boot®  
Guardrail System**

### Clamp On Guardrails

#### STRINGERSHIELD™ STAIR RAIL CLAMPING SYSTEM

The StringerShield™ Stair Rail Clamping System allows contractors to quickly erect OSHA compliant stair rail system on stringer stairs and/or pan stairs typically found on Commercial construction projects.

Each unit clamps directly onto the edge of the stringer or pan stair for safe, quick protection without drilling into the structure and easily adjusts to accomodate 8 inch to 12 inch stringer depth and 1.5 inch to 2.5 inch width.

- Includes comprehensive installation instructions
- Durable, fully reusable
- Exceeds U.S. Federal OSHA temporary stair rail strength regulations.

## TEMPORARY TRAFFIC CONTROL PRODUCTS

### Traffix™ PVC Traffic Cone

#### SPECIFICATIONS:

- Injection molded PVC, MUTCD Compliant, 18" 28" & 36" wide body traffic cones
- Rubber base for excellent stability and anti-skid performance
- 7 lb. or 10 lb., 28" cones, 3 lb., 18" cones, 10 lb. or 12 lb. 36" cones
- 6" and 4" reflective collar for MUTCD compliant nighttime performance
- Flourescent orange color throughout for superior fade resistance
- Ridges on the inner cone allow for easy stacking and deployment
- Reflective collars are recessed, providing abraision resistance and easy stacking
- PVC and rubber formulation provides excellent all-weather performance.

Item Number	Height		Description
15018-NSWB3	18"	3 lb.	No Reflective
15018-HIWB3	18"	3 lb.	6" Refelctive Collars
15028-NSWC7	28"	7 lb.	No Reflective

## TEMPORARY TRAFFIC CONTROL PRODUCTS

### Traffix Channelizer Drum™ & Bases

#### TRAFFIX CHANNELIZER DRUM™

- Retaining flange for added strength during impact
- "D" shaped design minimizes rolling after impact
- UV inhibitors minimize fading
- Available in High Density Polyethylene or impact resistant, reshapeable Low Density Polyethene

### Grabber & Looper Tubes/Cones

#### Cone Bars

Easy to move, stack, and choose 28" or 42" height.  
Choose between Grabber Cones & Tubes or Looper Cones & Tubes.  
10 lb., 12 lb., 16 lb., 30 lb. 100% recycled weights.

### Barricades Plastic Folding Barricades, Metro-A-Cade & Vertical Panels

#### Type I & II Folding Barricades

Traffix Devices Type I & II barricades are constructed from impact resistant plastic, and all the components can be replaced should they become damaged.

#### A-Frames & Rails

Traffix A-Cade works with 4, 6, 8 and 12 foot Traffix-Rails. The reflective area of the Traffix-Rail is 8" wide. A-Cade leg also accepts Phoenix Plastic Rail.

#### Type III Barricades

Economy Type III Barricade with Phoenix plastic rails, provides low cost Type III solution with rolled steel uprights and feet.

#### Vertical Panels

Traffix Devices Vertical Panels are plastic and rubber barricades that are designed to take repeated impacts with little or no damage to the panel or vehicle.

## SIGNS

### Roll-Up Signs

#### Roll-Up Sign Features

#### Materials and Specifications

Available in a variety of materials and sizes, roll-up signs offer full size language in a lightweight and easy to store design.

- All roll-up stands are MUTCD and NCHRP-350 compliant.
- Fiberglass ribs, or cross bracing, feature a protective veil to prevent blooming and painful splinters.
- Standard corner pockets are made of tough polycarbonate for durability. Sewn pockets are available on request.
- Hood and loop strap for storage.
- Overlays for changeable message signs also available.

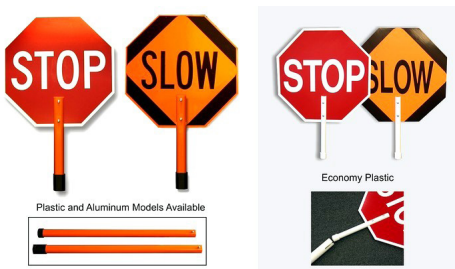

### Roll-Up Sign Stands

UniFlex™ is the perfect match for 36" and 48" roll-up signs. UniFlex™ features a heavy duty steel coil spring design providing superior stability in windy conditions.

- Display roll-up signs 12" off the ground
- Foot actuated kick releases with three locking positions for storage and stability on uneven terrain.
- MUTCD and NCHRP-350 Compliant.
- Two methods of attachment: Screwlock for standard roll-up signs or Stablock™ for Fold & Roll™ signs.
- Aluminum leg models feature .100" wall aircraft quality tubing, economical 16 ga. steel leg models have an orange powder coat finish.
- Steel leg length is 22" that telescopes to 38". Aluminum leg version is 30" and telescopes to 51".

### Rigid Stop/Slow Paddles

Rigid stop/slow paddles are available in both 18" and 24" octagon versions with reflective and non-reflective surfaces. Choose either plastic or aluminum substrates. All rigid stop/slow paddles come with a 12" ABS plastic handle attached, full length extension handles available to accommodate various paddle heights requirements.

- Meet all MUTCD specifications.
- STOP/STOP (-ST/ST) versions available with 18" non-reflective and engineer grade reflective sheeting.
- Your choice of 18" or 24" octagon.

## TAPE

### Barricade Tape

#### BARRICADE TAPE

- Danger Tape - Red/Black
- Caution Tape - Yellow/Black
- 2.4 mil
- 3" x 1000' and 3" x 300'. 300' rolls are only available in the Caution tape.
- Made with durable, low density polyethylene.

Description	Item #
Caution Yellow/Black 3" x 1000'	13750
Danger Red/Black 3" x 1000'	13751
Caution Yellow/Black 3" x 300'	13749

### Utility Tapes - Underground

#### DETECTABLE WARNING TAPE

- Minimize field costs and time spent locating buried lines.
- Made from 5 mil, triple layer lamination of aluminum foil core encased in 100% virgin polyethylene
- APWA (American Public Works Association) color coded, legend specific
- Withstands temperatures from -94°F to 200°F for longevity
- Subsurface graphics permanently protected from soil acids and alkalis
- Custom legends available
- 2" x 1000'
- 3" x 1000'
- 6" x 1000'
- Buried Water Line, Buried Portable Line, Buried Non-Potable Line, Buried Irrigation Line, Buried Sewer Line, Buried Sewer Line, Buried Storm Drain Line, Buried Reclaimed Water Line, Buried Fiber Optic Line, Buried CATV Line, Buried Telephone Line, Buried Gas Line, Buried Force Main, Buried Electric Line.

## ELECTRICAL SAFETY LIGHTING

### Portable Lighting (LED)

5270

7' Work Light

5220

- 51 Watt LED Panel Light Tough and Rugged
- 3 Panel Design with rotating wings for 360° directional lighting.
- 3000 Lumen Output white LED illumination. Reduces eye stress and allows for better color rendering.
- Very Low Energy Consumption- draws 0.47 amps on a 120V circuit.
- Indoor/Outdoor

### Portable Lighting (LED Light Strings)

97120

- 20' STW LED Work Light with magnetic bracket and slide lock connection.
- 50,000 hour lamp life (24/7 for 6 years).
- 90 LED - 6.6 watts per fixture allows for connections up to 750' continuous.
- Very low heat output.
- Outdoor approved for wet locations.
- Optional magnetic swivel bracket with hook for easy attachment.
- High impact resistant, and compact for easy transportation and storage.
